# **Delta UPS Modulon Family**

### DPH Series, Three Phase, 20~200 kVA, 380/400/415 Vac

## Power Perfected, All Within 42U!

Experience the internationally celebrated Delta Modulon DPH Series UPS—a true standout for data centers worldwide. Renowned for its world leading power module density and unparallel reliability, this UPS has earned broad recognition in recent years.

Introducing an ingenious 80 kVA solution with an integrated battery, throughfully nested within a 42U rack. Need more power? Explore 200 kVA options when your business surges forward. You are ready to adapt as your business progresses!

#### Low Total Cost of Ownership

- AC-AC efficiency up to 96.5 % and Eco mode to 99 % optimize energy costs
- Activate Green mode with a load agregation function to boost system efficiency
- Remarkable power density of 50 kW per module in a 3U height (20 kW / 2U height) offering best space utilization
- Unleash the on-site full-load and full-battery test. No need for load banks, no set-ups-streamline process and cut costs effectively

#### Maximum Uptime

- · Redundant components and dual CAN bus deliver highest system availability and thwart single point of failure
- · Power and control modules self-synchronize to prevent downtime from control module failure
- Fully modularized design and hot swappable STS module, power module and controller card ensure minimize
   Mean Time To Repair (MTTR)
- · Integrated manual bypass eliminates maintenance-related downtime
- Pre-warning of key components aging reduces downtime risk (optional)

#### **Easy Management**

- Precisely meet your power backup needs now and unlock the ability to effortlessly scale up as your business flourishes
- · Color 10" touchscreen provides easy access to UPS information and streamlined operation
- · Intuitive LCD integrated UPS system, inbuilt battery and environment information visible and easy to manage
- Built-in USB port provides effortless connectivity to over 10,000 data logs for event diagnosis
